

Research & development

Product brochure
Rest of World

Overview

We understand that the research and development lifecycle can be a lengthy and often unpredictable process for companies in the life science industry. Our research and development (R&D) policy is an all-encompassing package designed to protect all companies throughout the development process, whether they be developing their own drug or technology, selling a product to be used in R&D or providing a service to companies needing assisting in the development of their product.

About CFC

CFC is a specialist insurance provider and a pioneer in emerging risk. With a track record of disrupting inefficient insurance markets, CFC uses proprietary technology to deliver high-quality products to market faster than the competition while making it easier for brokers to do business. Our broad range of commercial insurance products are purpose-built for today's risks, and we aim to give our customers everything they need in one, easy-to-understand policy.

Headquartered in London and backed by Lloyd's, CFC serves more than 60,000 businesses in over 75 countries. Learn more at cfcunderwriting.com and [LinkedIn](https://www.linkedin.com/company/cfcunderwriting).

Coverage highlights

Financial loss

Our policy covers the costs associated with an unintentional breach of contract, or an accidental or negligent act or omission from the providing of services.

Patent defense

Whether you are a patent owner or a service provider, you may be exposed to infringement allegations. Our patent defense extension covers the costs associated with defending your position.

Products liability

Our policy can provide cover for accidental bodily injury and property damage arising out of any material, finished drug product, laboratory consumable or equipment used for research purposes.

General liability

Non-product or service related bodily injury and property damage cover is key to any business. Our cover protects you against legal expenses and compensation claims made by external individuals.

Clinical trials

Clinical trials are one of the most important phases in R&D. Should a research subject be injured, our policy will compensate them on a no fault compensation basis per local statutory guidelines.

Cyber and privacy

Our policy can cover damages following an unintentional breach of confidential information, including costs incurred should you unintentionally reveal personal data or suffer a first party financial loss should systems be compromised.

Worldwide jurisdiction

Our policy provides worldwide jurisdiction as standard.

Appetite

What we like

Companies involved in life science research & development, such as drug development, medical device development, consultants, contract research organisations, clinical research organisations, pre-clinical testing services, analytical testing services, contract manufacturers, site management and clinical trials.

What we consider

Software application used for scientific research, placement of scientists as contractors

What we ordinarily decline

Genetic testing services designed to determine a patients susceptibility to a disease, animal testing services (other than rodents), contraceptive or reproductive products or services

Limits, deductibles and premiums

Maximum E&O limit	€10m / \$15m
Maximum products liability limit	€10m / \$15m
Maximum general liability limit	€10m / \$7m
Maximum employers' liability limit	€13m
Maximum clinical trials limit	€10m / \$15m
Minimum deductible	€1k / \$1k
Minimum premium	€275 for €1m E&O / products \$275 for \$1m E&O / products (for clients domiciled outside the US)

Coverage is subject to underwriting and the terms, conditions, and limits of the issued policy.
