## Overview

Medical malpractice claims and the costs of defending them are steadily on the rise, making litigation a key exposure in this sector. In addition, even following the successful defence of a case, few legal systems allow those defence costs to be reclaimed, leaving healthcare organisations and professionals vulnerable to the financial burden. That's why our medical malpractice policy provides well-rounded, bespoke cover supported by expert underwriters who truly understand this field.

## Coverage highlights

### Medical malpractice and professional indemnity

We offer worldwide cover, excluding US. Our policy offers clear, unambiguous cover for claims made against you for injury that stem from your clinical or healthcare business activities.

### Court attendance costs

The costs of attending court for a claim or loss through a daily allowance and pre-agreed sub-limit.

### Comprehensive brand and reputation protection

It is essential that poor publicity is averted or mitigated quickly. Up to a specified sub-limit, we will pay the costs of retaining the expert services of specialist public relations consultants to counter this publicity.

### Cyber and privacy

Healthcare organisations and professionals hold a large amount of highly sensitive data. Our cyber and privacy cover protects you against a variety of cyber-attacks and data loss scenarios. This add-on cover also includes loss or breach of data held in the cloud, cyber extortion, and hacking attacks on third parties emanating from your computer systems.

### Bespoke underwriting

Our medical malpractice team has a wealth of experience and we are able to tailor the policy cover to meet your specific business needs. We can write business on a Primary, Excess, Co-Insurance and Facultative Reinsurance basis and offer limits up to £10,000,000 or equivalent in local currency.
