

Manufacturer's professional

Product brochure
United States

Overview

CFC's policy is built for manufacturers, designed with this unique risk profile in mind. It combines manufacturer's E&O alongside optional cyber coverage, to ensure these businesses aren't left exposed to common risks during the normal course of business. With technological advancements and increasing contractual requirements, it is critically important that manufacturers possess a broad errors & omissions policy in addition to their general liability.

About CFC

CFC is a specialist insurance provider, pioneer in emerging risk and market leader in cyber. Our global insurance platform uses cutting-edge technology and data science to deliver smarter, faster underwriting and protect customers from today's most critical business risks.

Headquartered in London with offices in New York, San Francisco, Austin, Toronto, Brussels, Sydney, Melbourne, Perth and Brisbane, CFC has over 950 employees and is trusted by more than 150,000 businesses in 90 countries. Learn more at [cfc.com](https://www.cfc.com) and [LinkedIn](#).

Coverage highlights

Comprehensive errors & omissions cover

Our manufacturer's professional provides coverage for third-party financial loss due to the products failure to perform its intended function or the products failure to perform due to an error in the manufacturing process (human or technology).

Affirmative coverage for technology errors

As more technology is introduced into products, the more complex they become, and the higher the probability of their failure to perform. Similarly, as technology becomes more deeply integrated into the manufacturing process, there is a growing risk of technological errors that can disrupt production and result in faulty products.

Ancillary advice and services

Our professional liability coverage includes ancillary advice or services rendered in relation to the manufacturing of the product which is beneficial for when value-add services are offered.

Pollution liability

Our policy includes cover for pollution liability at third-party sites resulting from the manufactured product.

Intellectual property rights infringement

Manufacturers using advanced technologies, materials, 3D printing and augmented reality to provide their services, can be at risk of their IP rights being infringed or unknowingly breaching IP rights of others. They may also enter into IP licensing agreements for trade marks in exchange for royalties.

Cyber, privacy and cybercrime cover

Our cyber and privacy and cybercrime cover takes into account the risks faced by manufacturers by providing protection against a wide variety of cyber attacks and data loss scenarios. Manufacturers are deemed high-value targets for cyber criminals because of their vast amounts of data held and their reliance on technology in order to keep operations running smoothly, making any disruption potentially devastating.

Legal cover

Our policy includes cover for suits brought anywhere in the world as standard. We also offer full civil liability coverage and cover costs incurred by attending court sessions in relation to a claims or loss case covered by this policy.

Excess & umbrella liability

Can be included if higher limits are required. This can sit over the primary policy or with another insurance provider.

Limits

E&O	\$5,000,000 USD
Cyber	\$5,000,000 USD
No revenue threshold	

Coverage is subject to underwriting and the terms, conditions, and limits of the issued policy.
